# SEALING AND BONDING SOLUTIONS FOR VENDING MACHINES AND STORE REFRIGERATORS

Sika technologies are suitable to bond the most common substrates used for industrial applications, offering a competitive advantage with cost-optimized and reliable solutions. Manufacturers of refrigerators and vending machines use Sika solutions to bond and perfectly seal glass doors and covers; while temperature control and food preservation are combined with aesthetics. Sikaflex® solutions fully meet all these requirements, providing structural and durable bond on glass, aluminum and stainless steel frames. Moreover, SikaFast® solutions can be used for fast fixture applications of small components such as displays, pushbuttons, plates and mounting brackets.

## ADVANTAGES

- No welding process and metal buckling
- Smooth look without visible clamps or screws
- Possible use of thinner metal sheets
- Reliable and durable joints
- Easy and fast process: sealing and bonding in one step

## PRODUCT FEATURES

- Elastic and structural assembly solutions
- Optimized both for large and short scale industrial applications
- Non-sag properties for vertical applications
- High elongation and tensile strength properties with Sikaflex®-260 N
- Gap filling and short handling time with the 2-component technology of SikaFast®-555 L5
- Food approved solutions (indirect contact): Sikaflex®-522 and Sikaflex®-252

Elastic bonding and sealing of mineral glass on metal frame with **Sikaflex®-260 N**. For applications requiring food approval, **Sikaflex®-522** and **Sikaflex®-252** can be used. Reliable assembly of displays and small components in plastics and metals with **SikaFast®-555 L5**. Body removable sealing with **SikaLastomer®-710**.
